

Thank you for trying “Tundra Vol.1” for DUNE from Aiyin Zahev Sounds!

Every care is taken to ensure the presets are musically inspiring and technically useful. Because every one mixes differently please be sure to try the presets both wet and dry, that is, with and without the built in effects. However be aware also that sometimes the effects are to give atmosphere and space to the sounds and other times the effects are an integral part of the sound itself. Try these sounds with your host or third party effects also.

Best Regards
