

Aiyn Zahev Sounds & Resonance-Sounds proudly presents the follow up to the original "Colours" sound-bank for Sylenth1 with Colours Vol.2. 128 Trance, Electro & Progressive House presets.

Colours Vol.2 features crisp, sharp and modern sounds, Fat & Noisy basses as well as warmly distorted leads, lush pads and evocative ambient patches. Designed to work well for both Modern and Classic Trance, Electro & Progressive House.

Presets have Modwheel assignments and the FX are judiciously applied so you can drop these presets straight in the mix with minimal adjustments. Remember, it starts with the sounds, Enjoy!

Installation: Sylenth1 can load banks from any location, so just save this bank where you normally save banks and find the bank from Sylenth1's browser:

Ver 2.211 required

## Patch List
