## RESONANCE SOUND CARE PACKAGE FOR MUSICIANS

Right now due the Covid-19 pandemic, many of us are forced to restriction of their everyday life by isolation and feeling the uncertainty caused by this unprecedented situation. Especially, musicians are very effected - almost all performances, events, tours and bookings have been canceled. Probably for everyone concerned, an incredibly frustating situation. At Resonance Sound, we want to support the music community in this difficult time, and help people at home to be creative and thus, if possible, to distract themselves from the concerns of the current situation. To use the extra time at home or in the studio in a positive and creative way. So we put together a package from almost all our exclusive soundsets from the last years, as a small "Care Package for Musicians". 401 Sounds of Serum, Sylenth1, Massive, Spire and DIVA (newest version for all synthesizers recommended) together with 50 extra midi files. You can download it completely for free, and all the content is royalty free for use. We hope it helps, distracts or inspires to new creativity and music. But most importantly - stay safe and healthy! Best regards, Martin & Oliver.
