Drawing inspiration from labels such as Enhanced & Anjunabeats & artists such as Sasha and Vangelis, Altitude has gorgeous pads, deep basses, trance heaven plucks, moving atmospheric patches along with carefully programmed arps/sequences and dreamy leads.

Standard MIDI files for reconstruction of this project are included, a special feature of this pack however is the included midi loop format for Cubase users which allows you to preview and drag and drop sequences from the demo straight into your Cubase project, Spire will automatically load with the MIDI data and the preset. This makes the bank an even more immediate inspiration tool.

- 70 Presets
 - Modwheel & Velocity assignments
 - Cubase Midi Loops (70+)
 - Standard MIDI files (70+)
 - Version 1.08 or up required

AIYN ZAHEV SOUNDS

Sami Rabia began programming synthesizers over a decade ago, in 2012 he launched his first commercial sound banks under the moniker Ayn Zahev starting with the release of Serenity for Ultra Analog. It was well received by professionals and enthusiasts alike, and he went on to produce packs for some other popular synths, including DUNE and Sylenth.

Not long after this he began working with developers such as Tone2 and Xils-Lab, and in August 2012 he teamed up with Resonance-Sound.

Sami spends hours tweaking patches, his goals have always been simple: beautiful sounds. Sometimes that means beefy basses, sometimes it means lush pads and serene plucks, sometimes it means complex evolving ambient patches, but he has always looked for those special “uplifting moments” sounds in synths.
