## AIYN ZAHEV SOUNDS

Sami Rabia began programming synthesizers over a decade ago, in 2012 he launched his first commercial sound banks under the moniker Ayn Zahev starting with the release of Serenity for Ultra Analog. It was well received by professionals and enthusiasts alike, and he went on to produce packs for some other popular synths, including DUNE and Sylenth.

Not long after this he began working with developers such as Tone2 and Xils-Lab, and in August 2012 he teamed up with Resonance-Sound.

Sami spends hours tweaking patches, his goals have always been simple: beautiful sounds. Sometimes that means beefy basses, sometimes it means lush pads and serene plucks, sometimes it means complex evolving ambient patches, but he has always looked for those special “uplifting moments” sounds in synths.
