

**AIYN ZAHEV SOUNDS  
ELEVATION FOR HIVE**

Resonance Sound proudly presents the brandnew Elevation soundset for u-He's new monster synthesizer HIVE by Aiyin Zahev Sounds!

Elevation is a collection of 85 presets for U-he HIVE, aimed primarily at trance music producers. It takes its cue from modern and classic trance sounds but HIVE's signature sound provides a fresh take that works well in modern productions.

The bank takes advantage of HIVE's three distinct filter models to deliver squelchy resonant & screaming acid sequences. The fast envelopes allow for snappy, crisp plucks. The supersaw stacks are used for those massive anthemic leads, for the all important "breakdown". The bank also has several lush, dense pad sounds.

HIVE's fat, analog-like oscillators are put to use to provide your track with 27 foundational bass sounds, 17 of which feature a programmed sequence. Most bass sequences are programmed in octaves so as to be usable in any key. The effect section is used judiciously, subtle to extreme distortion, small EQ adjustments help the sounds stand out in a mix & delay and reverb set to match the mood and common usage of each style of sound.

For producers engaged in 138 or Progressive trance, EDM or even ambient electronic music, there is a lot this bank has to offer, whether as great starting points for your own sound design, or finished sounds right out of the box.

Features:

- 85 HIVE Presets in total
- Modwheel assignments on all Presets
- Individual MIDI files from the demo

Presets in Detail:

7 Acid Sequences, 17 Bassline Sequences, 10 Bases, 4 FX sounds, 16 Leads, 12 Pads, 12 Plucks & 7 Melodic Sequences

u-He HIVE v1.0 or later

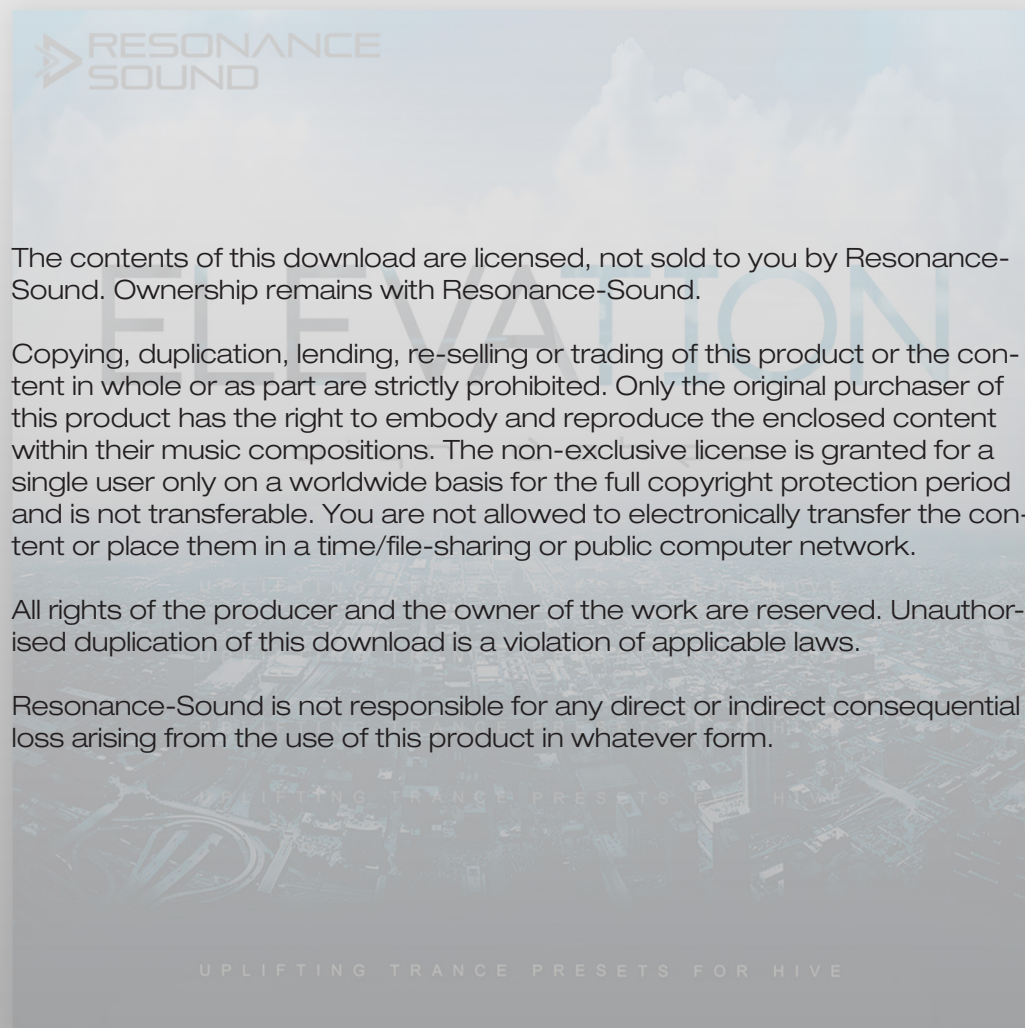

Sami Rabia began programming synthesizers over a decade ago, in 2012 he launched his first commercial sound banks under the moniker Ailyn Zahev starting with the release of Serenity for Ultra Analog. It was well received by professionals and enthusiasts alike, and he went on to produce packs for some other popular synths, including DUNE and Sylenth.

Not long after this he began working with developers such as Tone2 and Xils-Lab, and in August 2012 he teamed up with Resonance-Sound.

Sami spends hours tweaking patches, his goals have always been simple: beautiful sounds. Sometimes that means beefy basses, sometimes it means lush pads and serene plucks, sometimes it means complex evolving ambient patches, but he has always looked for those special “uplifting moments” sounds in synths.
