

**RESONANCE SOUND
TROPICAL HOUSE
FOR SERUM**

Tropical House is THE dominating genre this summer - guaranteed to bring good mood to your beach party or festival. Whether it be on radio stations, TV spots, DJ mixes or at your local house party, Tropical House Music has become the most famous EDM genre in 2016. With its catchy melodies, mellow pads, Kalimbas, Pianos and smooth Guitars, you will now be able to let the summer vibes flow directly into your studio. Producers like Matoma, Sam Feldt, Felix Jaehn, Seeb, EDX and of course Kygo, inspired this set of 64 patches for the most hyped synthesizer of the year - Serum. Due to Serum's flexibility and the genius Noise Oscillator, we were able to convert real instruments like Pianos, Guitars and even Vocals into this VST.

This soundscape comes with 50 MIDI files split into melody, chords, bass and more, which will make it easier than ever to create your very own Tropical House banger. Simply drag and drop a group of matching midis onto suitable presets, add kick, snaps and percussion and you are ready to catch the wave of happy summer vibes. We even assigned all 4 macros and the modwheel of each sound, to guarantee all possibilities of sound modulation in a "one - knob - scheme". Whether you already own high sound designing skills or you have just started with this science, this pack will let you dive into completely new ways of complex preset shaping. Listen to the demo to get an idea of the high quality of our sounds.

Note: Drums & Vocals in the Demo song are not included in this Preset Pack.
