

SOUNDS OF REVOLUTION  
**SUMMER DEEP HOUSE  
SYLENTH1**

Sounds of Revolution (SOR) presents Summer Deep House Sylenth1, an expertly designed preset pack for one of the most popular synths - Lennar Digital's Sylenth1.

Oliver Schmitt programmed 71 meticulously crafted patches including everything from classic deep house signature sounds right thru to a plethora of brand new inspirational content with MIDI construction kits and corresponding WAV files from the demo track.

SOR Summer Deep House Sylenth1 is packed with classic keys, moody and melodic leads, rich basses, deep retro chords, lush pads, driving plucks and sequences plus unheard fx sounds.

Inspired by artists like Robin Schulz, Oliver Heldens, Duke Dumont, EDX, ZHU and more, all presets have been meticulously crafted to fit into the mix with little or no further processing needed.

This pack also works great for UK house, bass house, deep tech, minimal techno or other EDM related styles. All presets provide full modwheel allocation for maximum flexibility and direct sound changes.

What makes the pack extra special is that the 11 themes featured in the audio demo are included as both Midi construction kits and as mixed WAV versions. Its now never easier to get inspired.

These carefully programmed construction kits (50 MIDI and 56 WAV files in total) are royalty free, fully customizable and ready for you to put your own unique stamp on! Simply drop the included WAV files into your DAW to get instant results. Each and every Wav/Midi stem is named after the corresponding part/sound in the included Sylenth demo.

This makes the pack a seriously powerful and timeless production tool with lots of analogue-inspired goodness.

Please note: The audio demo contains drum and vocal samples which are not included in the pack.
