

Thank you for buying Organism for U-he HIVE. Organism gives you 101 new presets, with a heavy emphasis on the ambient and luscious sound of unison wavetables. I've taken care to make sure the sounds are easy to use and cut through a mix.

I sincerely hope they inspire and fast-track your music

## **Installation:**

To install the presets, simply place the folder in HIVE's preset directory.

### On OS X:

/Library/Audio/Presets/u-he

### On Windows

C:/VSTplugins/u-he/Hive.data/presets

There is an easy way to get to it from HIVE itself. presets page, right click and select "Reveal in Finder" or "Show Folder".

This will take you to the area where HIVE stores it's presets. You can place the AZS Organism folder anywhere in that directly you'd like.
