

**RESONANCE SOUND
FUTURE HOUSE &
FUTURE BOUNCE VOL.4**

The series is now complete! After three successful releases of Future House & Future Bounce presets for the legendary synthesizer Serum, we are proud to present you the final addition to the series. The hype around Future House and its numerous subgenres has increased drastically over the last months. During the quarantine, we invested several weeks only listening to the chart-topping hits by Meduza, Don Diablo, Oliver Heldens, Brooks, Tiesto, David Guetta, Mesto, Tchami, Imanbek, Medison Mars and many more to capture the sound of the pros. This inspired us to create the 4th pack of Serum presets to level up your production.

Whether you're looking for slippery & gnarly basses, sharp & edgy leads or warm & atmospheric pads and plucks, this pack has it all. During the production of the soundset we kept an eye on the usability of the presets so they are not only radio-ready but also suitable for all kind of genres such as Future Bass, EDM or even for Pop productions.

As always, all 64 presets have all Macros assigned to make it as easy as possible to adapt the sound to your needs. And in case you ever struggle with inspiration, we included 10 midi files for the ultimate starting point. Just drag and drop them on your favorite sound in your DAW and get inspired.

Get this pack now to be prepared for the upcoming club season. These sounds will give you a head start over all others!

Please note: this pack contains Serum presets and MIDI files only. The drums in the demo are not included in your purchase!
