

**SOUNDS OF REVOLUTION
DYNAMIC PARTICLES**

Oliver Schmitt aka Sounds of Revolution (SOR) is back with a unique and truly inspiring sample collection: Dynamic Particles.

Aiming at Techo and related genres, but being certainly only limited by creativity, the unique SOR style and spirit is what makes also this sample pack special. Detailed and sophisticated loops and one-shots, combined with a dark, unique touch and vibe this one adds the perfect spice(s) to Techno, Melodic House, Melodic Techno, Minimal, Tech House, Deep House, and many more.

Using top-shelve (analog) sound generators in conjunction with extensive post-processing is doing the magic here, and Oliver's expertise makes these fit into virtually any track in no time. As with all SOR releases, every element was expertly tweaked for maximum sonic integrity. It's a collection that will kickstart your music creation process. Numerous never-heard one-shots, inspiring MIDI files and just those cool loops, all of these have been professionally named and sorted for maximum usability and efficiency. Even more, some loops are served in different flavours (dry/wet effect versions, construction kits, etc) to both inspire the producer's mind while allowing maximum creative freedom.

Make your next tune perfect, make it stand out, and move the masses like Dynamic Particles!
